DID YOU KNOW?

In October 2019, the World Health Organization sent out a shocking press release that not many people read or even knew about. This press release stated: "Mental disorders affect one in four people. Treatment is available but not being used. One in four people in the world will be affected by mental or neurological disorders at some point in their lives. Around 450 million people currently suffer from such conditions, placing mental disorders among the leading causes of ill-health and disability worldwide."
